

Dear Ewa

I just want to thank you so much for inviting me to Poland and all the hard work you put into the trip. I found it really interesting I never realised how big Barka are and that there so many strands to your work. The work you do is really impressive with amazing results. Please could you convey my thanks to your parents and all the other members of Barka who made me feel so welcome.

Once again many thanks!

Kind regards,

Davina M.Lilley
