

Dear Ewa,

I am writing on behalf of the City of London Corporation to thank you for inviting us to see the excellent work that is being done by Barka in Poland.

Myself and my colleagues would like to thank all associated with the Barka programme for sharing their work and experiences with us, and especially for the wonderful hospitality that was shown throughout our time in Poland.

I have come away with a much better understanding of the work that you do to rehabilitate homeless and addicted people. I was very moved hearing the stories that individuals told about their life experiences. I was particularly impressed by the philosophy of promoting independence and self sufficiency and co-operative working.

Thank you again and I do hope that we can continue our successful working relationship in the future.

Very best wishes to you and your family and everyone we met on our trip.

Jim Barber
